REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

A review of applicant's arguments in the amendment filed on April 3, 2006 and a review of the instant amended claims has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach or suggest a caulking joint concealing device in combination with a first and second waterproof surfaces that are a bathtub surface and a tile-covered surface or shower walls, wherein the concealing device comprises an elongated flexible central strip with first and second flaps longitudinally connected to the strip along its first and second opposite edges, the flaps are adhered to the waterproof surfaces in a water-tight manner, the central strip conceals the caulking joint with the flaps located on either side of said joint. Also, no evidentiary support could be provided to support the position that the claimed invention is obvious to one having ordinary skill in the art.

The closest prior art of TUCKER relates to a joint concealing device having the same structure but is used with dry wall joint, wherein the dry wall are not found to be waterproof surfaces as recited in claims 1 and 20 of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
